

For all the smiles of your life

I can't believe it's been almost four years since I started working with Harmony Expositions. My experience at their events has always been positive. Harmony has helped me reach employees at their workplace, where they spend much of their time and make many of their decisions. I've been able to educate them on dental health issues and encourage them to take advantage of their dental benefits. Nancy, Randy and the Harmony staff are always organized and great to work with, going the extra mile to make both vendors and attendees feel "at home".
